

**Telecoms and IT
Networking Specialists**

WELCOME

We are a specialist Telecoms and IT Networking Solutions Provider with over 30 years of experience in the Telecommunications and IT Industry.

Brookfield ICT are a specialist Telecoms and IT Networking Solutions Provider with over 30 years experience in the Telecommunications and IT Industry.

Brookfield ICT can proudly say that our experience spans two centuries. We have seen vast changes in technology in the last thirty years, and in the

last decade, advances in the convergence of voice and data solutions have been made at an incredible rate.

Our core staff at **Brookfield ICT** have been involved in the Telecoms Industry way back before 'Buzby' and the newly formed BT burst onto the scene, emerging from the Nationalised GPO & Post Office Telecoms eras, the first major Privatised British Telco, before the opening up of the telecoms markets, not just within UK, but Worldwide.

OUR APPROACH

A Wealth of Experience

Our wealth of experience includes 20 years working at a Corporate Level, supplying, installing and maintaining large multi-site ICT solutions for a diverse range of clients, including Banking & Finance sectors, large Telco's, NHS Health Centres, hospitals, Universities and the Public Sector. Unlike most of our competitors, **Brookfield ICT** covers both Telecoms and IT, and offer some unique and cost effective solutions to suit all levels of business.

A Technological World

In this increasingly complex world of technology, to the average small - medium sized business, hiring properly trained ICT professionals would be costly and prohibitive, yet there is a need to keep up to date with the latest technologies so as to ensure that your business runs as efficiently and smoothly as possible.

Our vision is one of looking forward, whilst learning valuable lessons from the past.

Total ICT Solutions

We offer a comprehensive ICT service from initial consultation right through to Project Management and Implementation, all backed up by our technical implementation and support specialists.

First Rate Technical Support

At **Brookfield ICT** our engineers are fully trained on all the products that we support. Our clients have the added peace of mind that when they report a fault or wish to discuss a technical issue, they will be speaking with a qualified engineer and not an automated voice recording or an unskilled call centre worker reading off a pre-written script.

We endeavour to resolve technical calls within 2 hours of reporting, with a same working day on-site attendance where necessary. Unlike most of our competitors we are able to offer an 'Out-of-Hours' 24/7 fault reporting centre, giving our customers the added peace of mind that when they are sleeping, we are not.

Accreditation

We are sales and support accredited for **Cisco, Microsoft, Nortel, Panasonic, Avaya** and **Siemens** and have technicians qualified to install and support CCTV and Sky Microwave and Cable Installations.
